

Furniture

richlite

Furniture

Originally developed in 1943 as an industrial tooling material, Richlite has expanded its versatile material into other industries such as action sports, food service, architecture and music. As a sheet material with superior structural properties, furniture makers have found numerous applications in replacing both sheet and hardwood material with Richlite.

Benefits:

- High strength and structural versatility
- Water resistant
- Superior table top durability
- Excellent substitute for steel
- Aesthetically pleasing

Applications:

- Interior furnishings
- Surface tops
- Exterior furnishings: bench slats and waste enclosures
- Casework
- Contract furniture
- Cabinet faces
- Keyboard trays
- Knob / hand pulls
- Brackets
- Accents or small parts
