

Exterior Cladding

richlite.

Exterior Cladding

Originally developed in 1943 as an industrial tooling material, Richlite has expanded its versatile material into other industries such as action sports, food service, architecture and music. With a direction towards highly insulated structures and passive house concepts, rainscreen systems have come to the forefront in the field of architecture. Our panels bring a natural look and feel and the best black you can find.

Benefits:

- Black color stays consistent
- Fast lead times
- Sheets available up to 60" x 144"
- Compatible with a variety of suspension systems
- Water resistant
- Class A fire rating
- Variety of thicknesses including standard 5/16"
- No edge sealing needed
- Easy on-site work

Applications:

- Low rise commercial (<40') exterior cladding
- Residential exterior cladding
