SUN WOOD

ABOUT US

Historic reclaimed wood from the Alps,
colorful planks from Caribbean beach huts
or gigantic redwood trees from the USA:
At SUN WOOD, we collect the most beautiful
woods from all over the world and make
them available for creative room solutions.

We have developed an innovative production process that
allows us to reproduce the look and feel of these woods
faithfully on local wood.

COLLECT

We've been collecting the most beautiful woods from
all over the world for over 15 years. These serve as a
template for the many SUN WOOD designs.

DIGITALIZATION

We digitize these woods in-house with our large format
scanner and use the high-resolution data for the unique
SUN WOOD reproduction and finishing process.

REPRODUCE

First, we give our main product - the 3-layer panel made
from local spruce wood - a feel that is true to the original.
Then we reproduce the authentic look using innovative
printing technology.

THE VISION OF A
DARING IDEA FIRES
MY BELIEF IN WHAT
IS POSSIBLE!

ARNO STAINER
CEO & Adventurer

THAT'S WHAT MAKES US SPECIAL.

At SUN WOOD, we have made it our mission to make unique woods accessible
for creative room solutions. We reproduce the most beautiful woods in the world
on a variety of substrates, offering versatile product solutions for individual projects.

From architects, shopfitters and exhibition stand builders to hoteliers, joiners and
carpenters - we serve a wide range of industries with our products. An international
dealer network guarantees rapid availability and low transportation costs.

You can find more information about our process,
our designs and much more on our website at
www.stainer-sunwood.com

3-LAYER PANEL

SUN WOOD 3-layer panels made of domestic spruce are ideal for creative wall and ceiling cladding, for store and exhibition stand construction, for furniture production or even as a temporary floor panel.

FACTS

- Material**
3-layered spruce wood
- Design**
one-sided (optional on both sides)
- Surface**
chopped or brushed
- Surface protection**
protective coating with brushed surface
- Formats**
6.000 x 2.050
5.000 x 2.050 | 1.250 mm
2.990 x 2.050 mm
2.500 x 1.250 mm
1.990 x 1.020 mm
(Compact solution = panel cutting optimized for shipping or special cuts on request)
- Thickness**
19 mm (further thicknesses on request)
- Extras**
panels on request also available with tongue and groove

FURTHER CERTIFICATIONS

- Fire protection**
DIN EN 13 501-1 B-s2, d0 (Europe),
CAN/ULC-S102 (Canada), ASTM85 (USA)
- Format fire protection panel**
2.990 x 1.250 mm
- Sauna**
ÖNORM EN ISO 12460-3
- Format sauna panel**
5.000 | 2.490 mm x 2.030 mm
- Shipbuilding**
International Maritime Organization
IMO Res. MSC. 307(88) FTP Code 2010
- Format shipbuilding panel**
2.990 x 1.250 mm
- Optional**
Also available in fiber cement with veneer in class A2

PROFILE BOARD

- Material**
3-layer spruce wood, profiled on 4 sides
- Design**
one-sided
- Surface**
chopped or brushed
- Format | Deck size**
2.350 x 280 mm | 2.340 x 270 mm
- Thickness**
19 mm
- Packaging unit**
3 pieces
- Usable area per packaging unit**
1,89 m²
- Certification**
PEFC

TONGUE & GROOVE BOARD

- Material**
solid spruce wood
- Design**
one-sided
- Surface**
chopped or brushed, slit back
- Deck width**
185, 225 mm, spring dimension + approx. 10 mm
- Length**
5.000 mm
- Thickness**
23 mm
- Usable area per packaging unit**
5 piece / 4,63 m² | 5,63 m²
- Certification**
PEFC

WOOD FROM SUSTAINABLE FORESTRY

As the basis for our products, we use only wood from our home region as the basis for our products and support ecologically, economically and socially sustainable forestry with the PEFC certificate.

FREE FROM PESTS AND POLLUTANTS

Unlike their originals, SUN WOOD products are free from pesticides, free from woodworms and free from harmful substances

100% HAND CHOPPED

Every single one of our products is unique, because a lot of manual work goes into it! Before we apply the desired SUN WOOD design, the surface is chopped and/or brushed by hand.

LARGE FORMATS PERMANENTLY AVAILABLE

We refine all types of wooden beam materials. Wooden beams measuring up to 15 m, panels measuring 6 x 2 m or individual special formats are no problem for us. We also guarantee the long-term availability of our designs.

VERSATILE USE

Optional certifications make the panels ready for use in saunas, shipbuilding or in public areas that require a fire protection class.

CHIPBOARD

Material

high quality chipboard

Design

one-sided (optional on both sides)

Oberfläche

spruce veneer (0,9 mm) brushed,

- Montage**
wall covering adhesive, spray adhesive or double-sided adhesive tape installation according to website

OPTIONAL
connecting strip

OPTIONAL
closing strip

MATERIAL
CHIPBOARD

LAMELLA ON CHIPBOARD

AVAILABLE IN
ALL SUN WOOD
DESIGNS

FACTS

- Material**
chipboard with Lamella top layer
- Format**
2.420 x 1.250 x 19 mm
- Backside**
back with counter film or veneer
- Design**
both sides possible with Lamella in 22 mm
- Extras**
cutting and edging for furniture components available on request
- Edges**
edging possible with ABS or veneer edges

FLEXIBLE SUPPORTING MATERIAL

Whether wave shapes, edges or curves - Lamella adapts flexibly to its substrate.

INDIVIDUAL DESIGN

Choose from our versatile range of SUN WOOD designs - so that Lamella fits perfectly into your room concept!

EASY INSTALLATION

Thanks to its lightweight design, Lamella is easy to install easy to install and suitable for a variety of surfaces.

SIMPLE, FAST & AFFORDABLE SHIPPING

Lamella is easy to transport in roll form - this saves time and and above all space!

LENGTH ON REQUEST

Lamella is available by the meter – so lengths of up to 10 m are are no problem for us!

FURNITURE
LINOLEUM

We use furniture linoleum from FORBO and refine the surface. Using scratch-resistant color lacquering, we create UNI color tones, wood designs and much more for the furniture industry. The feel of the product remains almost original.

FACTS

Standard formats

3.050 x 1.830 x 2 mm
1.000 x 1.830 x 2 mm
(+ / - 10 mm tolerance)

Further formats available on request

Weight

approx. 2,11 kg / m²

Minimum order

1 sheet

Extras

cut to size possible, optionally available with double-sided adhesive backing, for formats see website

All Forbo solid colors can also be ordered with matt transparent anti-fingerprint protective lacquer. This protects the forbo from everyday dirt such as ketchup, mustard, coffee, red wine, olive oil, etc. and makes it easy to clean. Slight color variations might occur. Any format up to approx. 3 m is available.

Shipping

On pallet or single rolled in carton

YOU CAN FIND
ALL OUR DESIGNS
ON OUR WEBSITE

DESIGN
// BURNT WOOD FO 19

PROCESSING

Roll up sheet material only
at room temperature

Preparation

Acclimatize the material for about 24 hours before cutting it. Cut back the edge evenly on both sides to obtain a width of 183 cm.

Note

Furniture Linoleum is made from renewable raw materials, so there may be slight color variations in different batches. This should be taken into account when reordering.

BARK 810 LTECH

FOREST-FEELING for indoors

With the new BARK 810 LTECH design, we are taking the look and feel of a tree bark reproduction to an amazingly authentic and unprecedentedly natural level. Deep structures, indentations and shapes ensure that the panels are virtually indistinguishable from original tree bark, both visually and to the touch. At the same time, they have many advantages over original bark for indoor use.

AVAILABLE FORMATS

Poplar plywood
15 | 18 mm
2.520 x 920 mm

NEW Now available on furniture linoleum!
Sauna-certified possible in the format 2,830 x 1,030 x 15 mm

// BARK 810 LTECH

// BURNT WOOD 19 LTECH

BURNT WOOD 19 LTECH

BURNT WOOD completely without fire contact

We transform wood support materials made from local spruce wood into burnt wood. With the help of the unique SUN WOOD surface treatment, the charred look and feel is faithfully reproduced in three dimensions - but without ever coming into contact with fire!

AVAILABLE FORMATS

3-layer panels:
2.990 x 1.000 x 19 mm | 1.490 x 1.000 x 19 mm
1.200 x 666 x 19 mm

NEW Now also available on parquet and furniture linoleum!
Further supporting materials available on request.
Order your sample now!

DESIGN
// **CONCRETE 303**

CONCRETE DESIGNS

FLEXIBLY INTEGRABLE INTO MODERN ROOM CONCEPTS

SUN WOOD concrete designs combine the material properties of wood with the purist design of concrete. This makes the trendy surface accessible for versatile furnishing projects.

AVAILABLE FORMATS

Chipboards:
2.800 x 2.070 x 19 mm

3-layer panels:
2.500 x 1.250 mm | 2.990 x 2.050 mm | 5.000 x 2.050 x 19 mm

Further supporting materials, Lamella, furniture linoleum available on request.

VISIT US AND BE INSPIRED

The WOODPRINT House is located in the heart of the beautiful Salzburg region. A colorful place that combines the SUN WOOD product variety with a unique wood experience world and a café in an extraordinary atmosphere.

THE EXPERIENCE WORLD

Embark on a voyage of discovery between gigantic sequoia trees, historic old wooden boards and special features from all over the world and treat yourself to sweet delicacies in the café.

THE SHOWROOM

Let yourself be inspired in the SUN WOOD showroom by making an appointment for a consultation: In addition to wall coverings, tables, benches, beds and original upcycling ideas, we will show you the diverse design directions and possible uses of our products up close. We look forward to seeing you!
