A Year of Celebration and Innovation

We're already well into 2025, and as May arrives, it's the perfect time to celebrate some of the incredible achievements we've made so far this year. This September marks 50 years of Havwoods – a significant milestone that invites both reflection and excitement for the future.

2025 feels especially meaningful for Havwoods. It shines a light on half a century of craftsmanship, design-led innovation and collaboration. While we're proud to celebrate our heritage, this WoodBook is also about what comes next.

We've always been a business that keeps moving forward. Growth and innovation continue to shape everything we do, from the products we develop to the sustainability goals we set. This year sees the launch of FlameLESS, our Bfl-s1 rated engineered wood flooring, setting a new benchmark for compliance in the wood flooring industry. We're also very proud to introduce Lateral by Havwoods, our first-ever furniture brand and a bold new direction for our business.

In February, we renewed our ISO 14001 certification, and we've just launched our first Net Zero Report, outlining the steps we're taking to reduce our footprint and meet ambitious carbon targets. These aren't just milestones, they reflect a mindset of constant progress, environmental responsibility, and reinvestment in what matters most: our products, our people, and our planet.

On behalf of the Havwoods team, I want to say thank you for being part of our journey over the last 50 years. Whether you're working with us on a residential project, a workspace, a hotel, or a retail setting, we hope this edition of the WoodBook inspires your next great design project.

Anthony Scott
Global Product & Innovation Director

Wood that makes memories

Become a defining part of the Havwoods50

To celebrate our milestone 50th anniversary this September, we're thrilled to announce the launch of the Havwoods50 – a retrospective showcase of fifty memorable, inspiring and innovative projects delivered by Havwoods across the globe.

The Havwoods50 is an exciting opportunity to share remarkable stories and celebrate some of the most incredible spaces and aspirational interiors we've crafted for our clients.

We'll be selecting fifty projects to feature in the Havwoods50 commemorative book, a special printed edition being released this September. Each one will also be showcased across our digital and social channels, giving these memorable projects the spotlight they deserve.

Driving high standards in logistics

Added to our transport fleet in early 2025, our new 32-tonne Volvo FH 8x2 Tridem Globetrotter XL rigid incorporates the latest fuel-saving technology to increase efficiency and reduce CO₂ emissions.

Operating from our state-of-the-art distribution centre in Carnforth, the impressive vehicle is expected to cover up to 150,000 km a year, delivering our products to clients across the UK.

Mick Leech, our Head of UK Operations, says: "By investing in high-spec vehicles like our new Volvo we continue to set the standard for excellence in our logistics and supply chain, ensuring that our luxury wood flooring and surfaces arrive in perfect condition – just as our clients would expect.

"The Volvo engine offers a balance of power and fuel economy, ensuring we can maximise efficiency on our long-haul journeys while keeping running costs down. The 8x2 Tridem axle configuration – with lifting pusher and tag axles – also offers excellent manoeuvrability and load stability, ensuring safer and more efficient deliveries." 🟩

Over the years we've delivered some incredible projects in iconic landmarks such as Battersea Power Station

Celebrate your project by becoming part of the Havwoods50!

If you've worked with us over the last ten years on a standout project, you are invited to submit it for consideration in the Havwoods50! Whether it's a beautifully designed home, a one-of-a-kind workspace or a hospitality project built around sustainability – we'd love to hear your story and showcase your project as part of our special anniversary celebrations.

Simply go to our website to submit your project: havwoods.com/uk/havwoods50

The deadline for project submissions is midnight on Friday the 6th of June.

Projects must have been completed within the last ten years. Entries are welcome for projects completed across the globe. All submissions will be considered by our Marketing Team. The final list of 50 projects will be chosen by our Executive Management Team by the end of June 2025. 🟩

Havwoods' Volvo FH 8x2 Tridem Globetrotter XL

Achieving a better future together

Our ongoing commitment to reducing our environmental impact

In February this year, we were very proud to successfully renew our ISO 14001 certification - an important milestone in Havwoods' ongoing commitment to sustainability.

Originally achieved in February 2024, the renewal of this internationally agreed and recognised certification reinforces our dedication to reducing environmental impact and continuously striving towards ambitious global sustainability goals.

The ISO 14001 certification sets the standard for EMS (Environmental Management Systems) and provides a framework for organisations to design and implement an EMS to continually improve their environmental performance. Over the last two years, teams across Havwoods have worked to continuously review and implement numerous initiatives associated with Environmental, Social & Governance (ESG).

Paul McManus
Purchasing Director & Head of Global Compliance

Sample recycling boxes were introduced to all our UK showrooms in 2024

"This is a fantastic achievement for Havwoods and we're so pleased to have renewed the ISO 14001 certification for 2025," said Paul McManus, Purchasing Director and Head of Global Compliance. "Keeping regulation, compliance and good governance central to all our processes is a vital part of our business, and we know it's an ongoing commitment for all the teams involved."

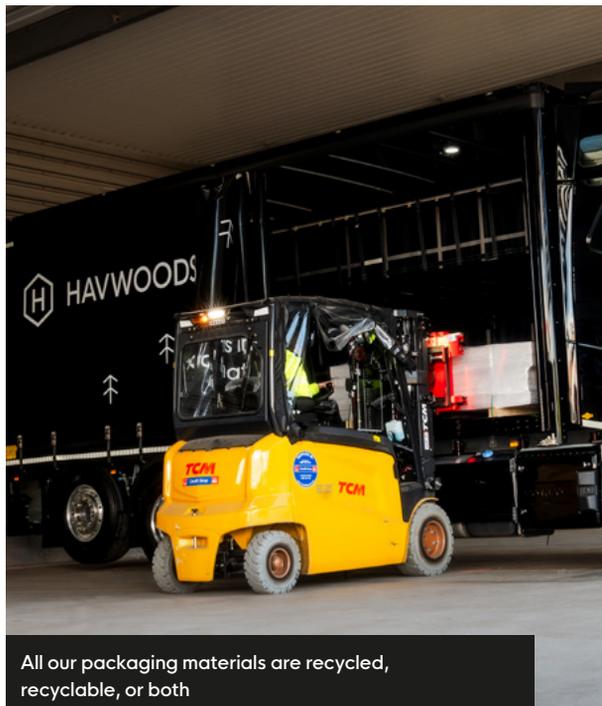

"We have been so impressed by the dedication people have shown during the recent audits, it's a real testament to how passionately everyone at Havwoods feels about sustainability. You can truly see the positive impact of our key environmental initiatives in our everyday processes, and in the way people speak about our products, both internally and with our clients. Our aim to inspire positive environmental change really goes all the way through from our purchasing team to our warehouse, transport, facilities, showrooms and our wider support functions."

"Francis Obi, our former Global Purchasing and Operations Director, who retired in March, did an incredible job setting the sustainability vision for Havwoods. He set very high standards, and we're determined not only to maintain them but to

Solar paneling at our Carnforth Head Office

exceed them over the next decade. We have just released our first annual Net Zero Report which categorises, measures and reports on all our business activities in line with established carbon accounting methodologies defined by the Greenhouse Gas (GHG) Protocol, and we are fully committed to our Net Zero Targets. We recognise that environmental sustainability is a shared responsibility and by taking action now, we are creating lasting benefits for both our customers and our teams – now and for generations to come." 🏠

All our packaging materials are recycled, recyclable, or both

Beth Kendrick, Product Category Manager

Trend-setting TreeAzzo

"Since launching TreeAzzo at the end of last year, we've already seen an incredible level of interest in the product. It's such a fun and versatile material, it can inject subtle texture into an interior or make a bold design statement.

"Our clients have begun specifying TreeAzzo for dramatic flooring projects, as well as bespoke tabletops, kitchen counters and basin surrounds.

"My personal favourite is raspberry. It pairs beautifully with light woods like oak, birch and pine for a Scandinavian look, or contrasts strikingly with darker tones such as walnut or ebony. With its eco-friendly composition and character, TreeAzzo naturally becomes a focal point, or even a conversation piece within any interior."

Beth Kendrick
Product Category Manager

NORTH AMERICAN EXPANSION

Castle Bespoke Flooring

As we celebrated the beginning of our 50th anniversary year in January, we were delighted to announce that Castle Bespoke Flooring, based in Oregon, USA, has officially joined the global Havwoods family.

Uniting two uniquely successful businesses, this exciting acquisition brings together generations of expertise, exceptional service, and a shared passion for delivering beautiful, premium wood surfaces.

Built upon a proud legacy dating back to 1927, Castle Bespoke Flooring has been built upon four generations of expertise in wood flooring craftsmanship. Today, it is one of largest and most-respected wood floor companies in the Northwest of America. Their bespoke floors grace luxury homes, hotels, and commercial spaces across the U.S. Mainland, Hawaii, Alaska, and Canada.

Castle Bespoke Flooring visit our Carnforth HQ

Our Global Product & Innovation Director, Anthony Scott, delivering a product training session

Welcoming Castle Bespoke Flooring into the Havwoods family represents a shared vision to help more people bring their dream spaces to life through wood. With access to significantly wider geographic territories across the U.S. and Canada, we will be able

to expand our face-to-face client services, harness Havwoods' expansive product portfolio, provide enhanced bespoke client offerings and strengthen our innovative supply-chain networks.

The Castle team visited our Carnforth Head Office in early February to hold two strategy days with our global Executive Management Team. They also received product training from our Global Purchasing and Product Director Anthony Scott, enjoyed a tour around our state-of-the-art distribution centre and filmed an exciting 'In Conversation' video with North America Managing Director Jordon Munro. 🎬

to find out more about the acquisition of Castle Bespoke Flooring you can watch the full In Conversation video on our website havwoods.com/uk/videos

RIBA - ACCREDITED CPDs

Supporting Your Development

Havwood's RIBA-accredited CPDs are thoughtfully crafted for architects and specifiers, offering meaningful and inspiring content.

Presented by our experienced Business Development Team, we offer four engaging CPDs: Journey Towards Circularity, The Journey of Wood Flooring, Regenerative Architecture and Wood & Wellbeing.

All our CPDs are available as webinars or as in-person sessions, either at your office or in one of our five UK showrooms.

To book, email us at info@havwoods.com or scan the QR code.

Colossal

Dramatic by nature

Crafted from expansive lengths of European Oak, Colossal brings a whole new dimension to interior spaces. These super-wide and super-long planks are cut from slices of the largest trees to provide a majestic flooring option that naturally elongates spaces and delivers dramatic interiors.

Installed with no header joints, each enormous piece of Colossal can run perpendicular along the full length of a room. Available in some of our most popular "hero" colours, every plank is totally bespoke and available in variable widths that bring extra visual interest into an interior. Part of our Handgrade Premier collection, Colossal is utterly unique and perfect for your most prestigious projects.

The Island sleeps six and is available to rent at
www.theislandcornwall.uk

Peaceful and tranquil, this nautical bolthole is perched above Towan Beach in Newquay, on the beautiful and dramatic north coast of Cornwall. Available for rent as a romantic retreat, honeymoon haven, or family-friendly getaway, The Island offers a stylish and comfortable house perfect for making lasting memories. The Bergen 1-Strip flooring from the hard-wearing Henley Collection was chosen to complement the property's design scheme.

The varying tones of the Auburn colourway catch the light beautifully from the open windows, adding depth and contrast to the open and airy aesthetic of the interior. The flooring is followed through the whole house for consistency with the arched doorway adding a touch of charm and softness to the space.

Radiating warmth throughout, the Rustic grade planks have been paired with clean, white walls and a neutral interior scheme for a fresh, coastal vibe that will help guests escape into a relaxation haven. The dark grain of the wood ties in beautifully with the black rocking chairs and other darker accents in the living room, balancing the overall colour palette and enhancing the space's visual harmony.

Wood that raises the bar.
Wood that Works.

Venture Plank

A quality, high-performance, engineered board characterised by a comprehensive spectrum of interesting shades and a smooth finish.

FlameLESS

Bfl-s1 rated wood flooring by HAVWOODS

Our FlameLESS engineered wood flooring solution combines the stunning beauty of natural timber with advanced fire safety performance.

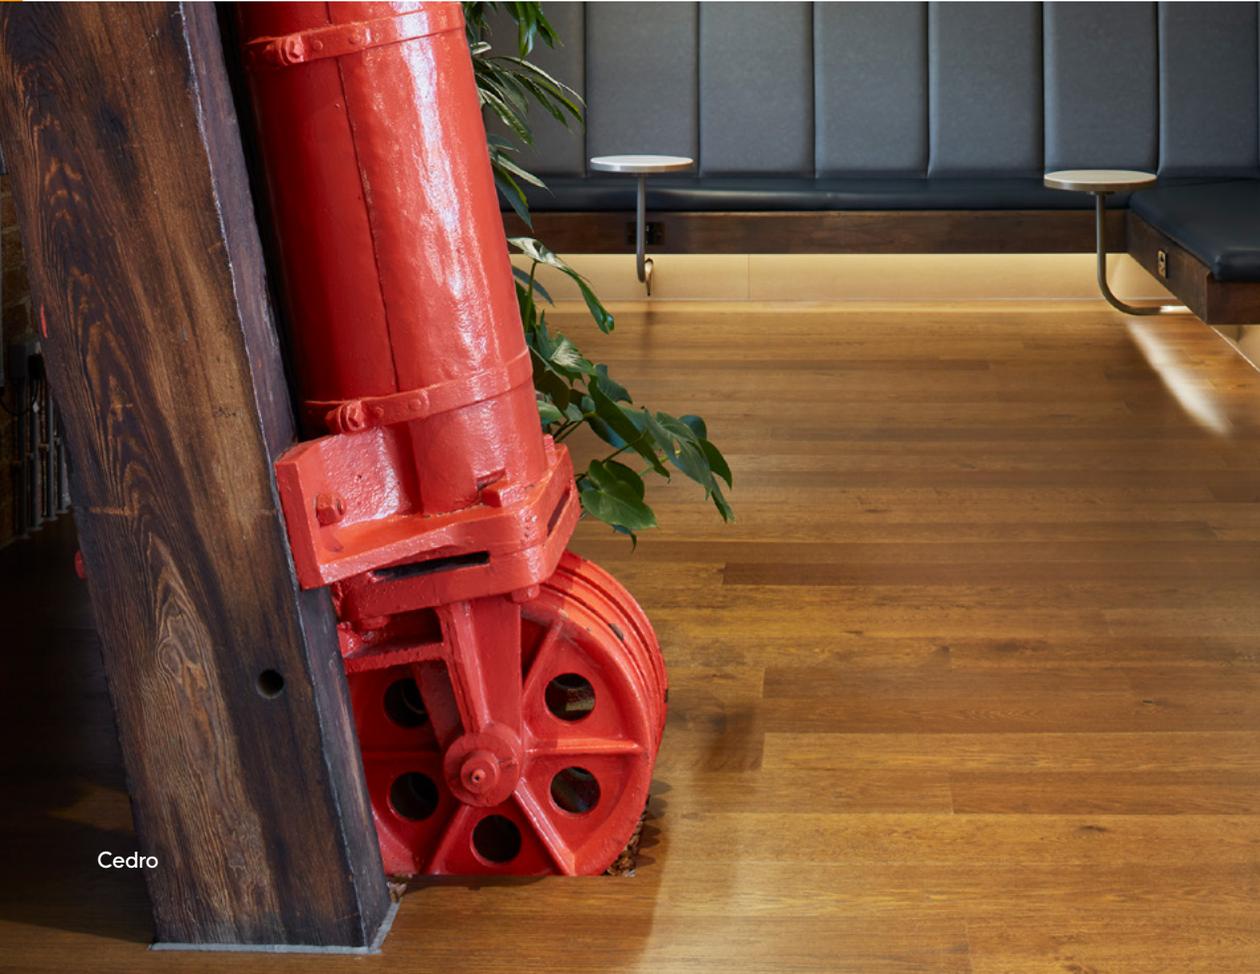

Engineered for both aesthetic appeal and safety compliance, this flooring is treated with specially formulated fire-retardant processes that enhance the flame resistance without compromising the wood's natural character.

Independently tested and certified to meet EN 13501-1 Bfl-s1 classification, this flooring delivers:

-  Low flame spread (Bfl): Significantly reducing the risk of fire propagation across the floor surface.
-  Minimal smoke production (s1): Ensuring optimal air quality and visibility in the event of a fire – critical for safe evacuation and reduced toxicity.

The fire-retardant elements create a protective barrier against ignition sources, whilst the engineered construction maintains exceptional stability.

Ideal for commercial and high-traffic residential environments requiring stringent fire safety compliance – such as hospitality, retail, and public buildings – this solution delivers both design excellence and peace of mind.

Rusty House on the Rye

Rusty House on the Rye is located in the Holly Grove Conservation Area in Peckham, South London. The 1950s property sits in a prime position which is highly visible from two main streets.

Purchased 14 years ago by the owner Victoria, she was regularly approached by developers wanting to buy and build on the land. However, she decided to take matters into her own hands, opting to expand her home and make the most of the space herself.

Victoria wanted to add a two-storey extension while maintaining side access from the front garden into the rear. The garden was a standout feature and integral to the project. Additionally, the client sought a larger kitchen, to accommodate working from home, a snug, a utility room and a new master bedroom. The existing home also needed updates, including resolving damp and ventilation issues and modernising the rooms to be more energy efficient.

The new design added significant floor space, with a mix of tiles and timber being used throughout. UK-based suppliers, such as Havwoods, were chosen, with the honey-coloured Venture Plank Cedro bringing a light and airy feeling to the home.

The aesthetic was to create a simple, calm atmosphere using natural materials to add warmth and texture. Ash window surrounds, bespoke joinery, oak parquet flooring and concrete tiles were used to create a minimalist, Scandinavian-inspired interior.

Natural daylight was also a key element, with roof lights over the stairwell, master bedroom and ensuite shower room, and large windows throughout. Large sliding doors were introduced to create a seamless transition between the interior and the garden, allowing the outdoors to feel like an extension of the home.

Calm Chevrons

Situated in West London, this residential project exudes contemporary charm and sophistication.

Led by Meon Group's Annabelle Eveleigh, Havwoods supplied its stunning Alabastro Chevron flooring from the Italian Collection for use throughout the entire property.

A complete renovation project, the building had been split into flats and was completely run down when purchased. After being fully gutted and extensions added in the loft, basement and on the ground floor, the finished home now boasts a simple but elegant look, suited to any modern home buyer.

Combining a mixture of contemporary and traditional features, the platinum finish of the Alabastro Chevron flooring complements the pared-back interior design scheme beautifully. To add an extra visual interest, the chevron flooring has been laid diagonally, bringing a unique design flair to the finished spaces. From marble and beaded wall panelling to modern black accents, the entire property now flows with seamless ease, as a cohesive, stylish and welcoming home.

Walnut Workspace

Located in a prime location in Mayfair, 50 Grosvenor Hill is one of the latest, luxury flexible workspaces by Grosvenor.

Working with Kinersley Kent Design, Havwoods' Walnut was chosen in a herringbone pattern as the flooring for a number of areas within the two-storey building.

Providing welcoming environments for businesses, customers and clients, Grosvenor prides itself on its beautifully designed spaces in prestigious locations, offering fully equipped offices that meet the modern business customer's needs.

50 Grosvenor Hill is no exception – complete with eight contemporary private offices with dedicated meeting rooms, stunning break-out spaces, multiple communal meeting rooms, hotdesks, private phone booths and a fifteen-person boardroom.

Complementing the monochrome accents and rich palette of blue, green and gold, the Walnut finish brings a luxurious feel to the prestigious workspace and creates a wonderfully cohesive scheme that feels both welcoming and uplifting.

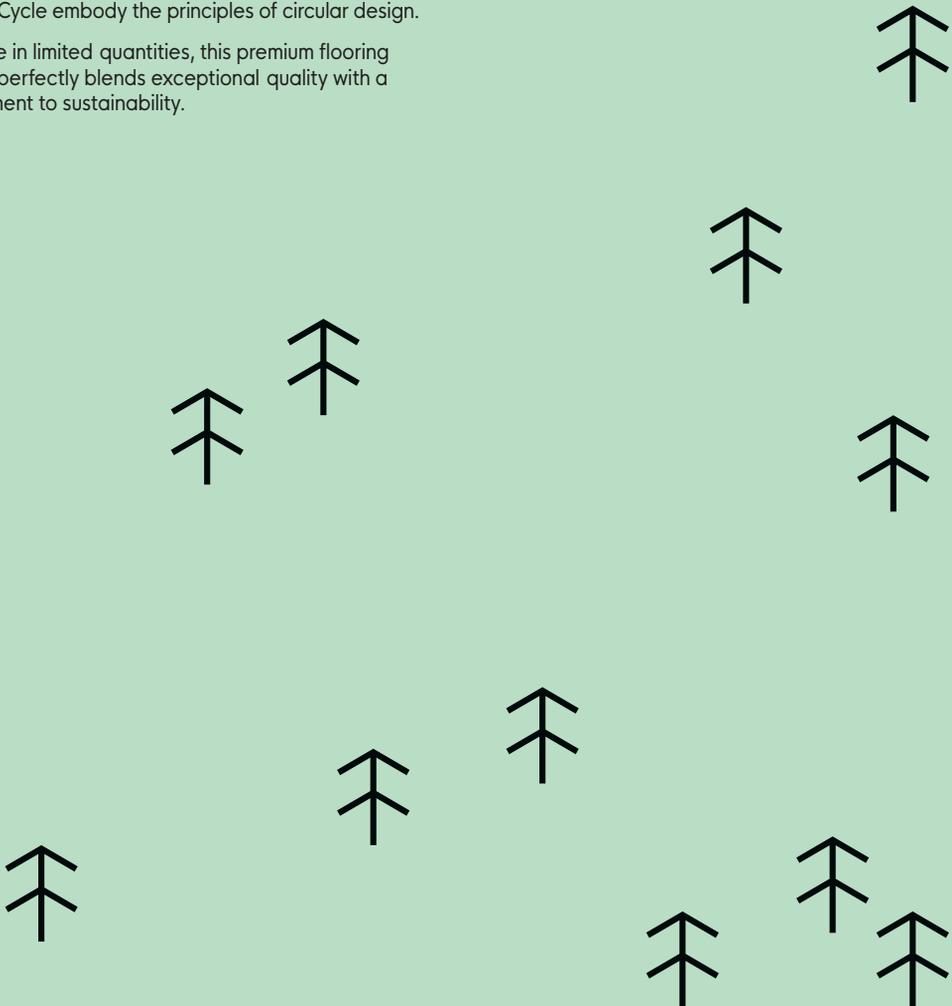

V Cycle

Giving luxury flooring a second life, V Cycle is Havwoods' limited-edition collection crafted entirely from recycled materials.

Expertly refinished and repurposed using unused stock, V Cycle is the company's first fully recycled flooring collection. Offered in popular hues and Havwoods' well-loved Hero colours, all the boards within V Cycle embody the principles of circular design.

Available in limited quantities, this premium flooring solution perfectly blends exceptional quality with a commitment to sustainability.

HW2044 Alsace Herringbone

**Wood that is sustainable.
Wood that Works.**

PurePlank

Offering a breadth of sustainably certified timber in plank, herringbone and chevron.

Naturally Retro

When tasked with redesigning a mid-century home in the picturesque Surrey countryside, Three Reasons Interior Design set out to strike a delicate balance between honoring the property's architectural origins and creating a contemporary home tailored to the client's lifestyle.

For this project, Havwoods' HW2045 Holme in herringbone was selected. Its light, neutral tones provided the perfect foundation for a luxurious, yet natural aesthetic, avoiding the yellow undertones often associated with oak.

Dubbed "Naturally Retro," the design concept paid homage to the home's mid-century roots while modernising the interiors to reflect a relaxed, contemporary vibe. Key architectural updates included replacing the original stone-clad fireplace with a dramatic double-height split-faced quartz feature and concealing the ceiling beams to streamline the space. The teak staircase and balustrades were replaced with glass and oak, opening the area and creating a seamless flow between rooms.

With a keen focus on the natural surroundings, the client—a passionate gardener—wanted the home to embrace indoor-outdoor living. The flooring's light tones and organic warmth played a crucial role in connecting the interior design to the lush gardens beyond. This holistic approach ensured the property stood out among neighboring homes while remaining deeply in tune with its environment.

The Cranleigh project marked the designer's first collaboration with Havwoods. Introduced through an event in the Chelsea Design Quarter, the brand impressed with its range, quality, and exceptional customer service. The availability of HW2045 Holme in the desired herringbone format further provided Havwoods as the ideal choice for achieving an upmarket look that complemented the property's bespoke design.

Wood that meets your needs.
Wood that Works.

Bespoke

When standard products won't do,
our Bespoke service delivers unlimited
solutions for your needs.

When standard products won't do

Sometimes your requirements cannot be filled by our standard products. While our range is extensive, at the same time, we understand occasionally you need something more. We are proud to be able to fulfill your bespoke wood flooring requirements.

You can have your ideal floor of any size, colour or pattern. You may start with one of our standard products or even an external option that is giving you the overall look you are after. Our team can then work with you to refine the primary characteristics of the product to meet your exact needs.

We may be able to modify:

- Width or length of the planks
- Thickness of the product to meet desired build-up
- Grading of the top layer
- Certification requirements
- Specific patterns or matching planks
- Custom design panels
- Surface texture and finish

Bespoke patterns, panels & designs

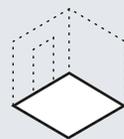

If you would like to opt for something truly unique then we can make the pattern of your dreams a reality. No matter the shape or complexity of design we will work with you to deliver a practical, yet impactful wood flooring solution.

If your project requires additional levels of accreditation then this is something we can offer on many of our products including FSC® (FSC-C009500), PEFC™ (PEFC/16-37-1417) or Cradle-to-Cradle™ Certified products.

Please note due to the production process involved in creating your perfect wood floor there is a minimum order level (approx. 100m²) and a slightly longer delivery times compared to stock items.

**Wood that is ground-breaking.
Wood that Works.**

FixFinity

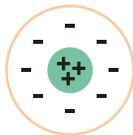

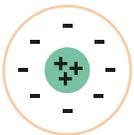

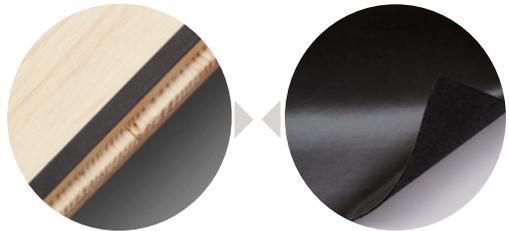

FixFinity is adhesive-free, sustainable and reusable, contributing towards the circular economy.

FixFinity

Fixfinity Floor is a groundbreaking system revolutionising floorcovering installation.

Designed with sustainability at its core, Fixfinity enables floors to be installed completely adhesive-free, making them easy to remove, reuse, and repurpose. Unlike traditional methods that rely on energy-intensive recycling processes or lead to waste from adhesive contamination, Fixfinity Floor supports a cleaner, greener approach.

When brought together, Fixfinity strips and matting become polarised and attract each other at an atomic level, creating a non-permanent bond.

This innovative system aligns perfectly with the principles of a circular economy, aiming to minimise waste and maximise resource value. By keeping materials in use for longer and reducing the need for new raw materials, Fixfinity plays an important role in reducing carbon emissions across the construction industry.

Fixfinity Floor isn't just a product but a step towards a regenerative, low-carbon future for sustainable building practices. The product possibilities are wide-ranging and can be a perfect option for apartments as well as commercial premises.

FixFinity is more than a flooring system, it's a new way of thinking about wood surface design.

It reflects our commitment to innovation, sustainability, and a circular future for the built environment. By eliminating adhesives and enabling reuse, FixFinity empowers architects and designers to choose wood flooring that works harder, lasts longer, and leaves a lighter footprint.

Edward Eagle,
Sales Director

Easily wipeable and reusable

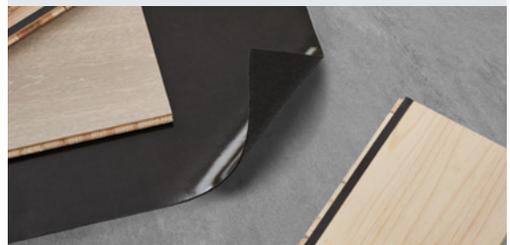

FixFinity can be laid directly onto metal flooring...

...directly onto a primed substrate...

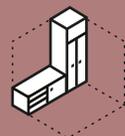

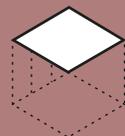

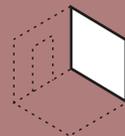

...or any existing floor with FixFinity matting.

Elegante Oak Costato W3M3

Wood that calms.
Wood that Works.

Beyond the floor

The design flexibility of timber makes it a perfect material choice for any interior surface.

TreeAzzo

TreeAzzo is a sustainable, environmentally friendly resin bound wood particle product. It is 100% handmade making each panel truly unique. High-quality, eco-friendly resin is mixed with wood chip wastage from the woodworking industry. The result is a modern twist on a contemporary classic of terrazzo style products.

The species of wood within the product include, but are not limited to: Walnut, Oak, Ash & Pine, and the resin can be customised to any floor resin RAL colour. The standard colours we offer are Raspberry, Nougat, Nougat Brushed, Fig, Liquorice, Pistachio, Blueberry and Oyster. The finishes are available in brushed, textured or in a completely smooth sanded finish.

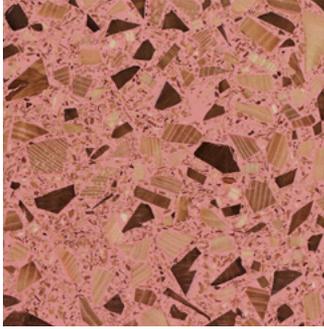

The product comes either with fibre cement backing or 18mm ply backing. These two construction options allow TreeAzzo to be used in multiple ways for floors, walls, in furniture making, cabinetry, worktops or counter splashbacks. The product can be drilled and cut like any other wood or cement board based product. We can supply the product in any sizes up to 2500 x 1200 mm.

Elegante Veneers

Meticulously milled in the rolling countryside of the Pesaro e Urbino province of central Italy, our Elegante Veneers offer 3-dimensional beauty in intricate patterns that can add beauty and intrigue to any surface.

These 3 dimensional veneers are offered in a range of different surface styles:

Fresato (Milled)	Costato (Ribbed)	Ondato (Wave)
---------------------	---------------------	------------------

With the 3130mm x 1220mm veneer sheets offered in 3 different constructions:

- 0.3mm wooden sheet
- 15mm rigid backing
- 5mm flexible batton support backing (specific patterns only).

Flexible in installation, shape and style; these stunning surface finishes will adorn the most glamorous of spaces.

Simply Simplista

Designed to complement our comprehensive collection of Elegante Veneers, Simplista brings our most popular profiles in wave, milled and ribbed formats into a range of paintable MDF surfaces.

Also available in both fire rated and moisture resistant, plus standard MDF straight from stock; Simplista is flexible, paintable and perfect for applications including walls, furniture and cabinetry. Simplista panels are simple by design and versatile in application.

Please note: minimum order quantity for delivery is 3 sheets

Rustic cladding & veneers

Our Vertical collection perfectly captures the rustic appeal of wood, crafted with precision to modern standards for effortless installation and stunning impact in any interior.

Whilst the majority of our flooring is suitable for use as cladding, Vertical is a visually diverse collection which has been designed specifically for walls, ceilings and cabinetry. In order to achieve the required level of fire resistance under British Building Regulations, a suitable finish needs to be applied.

**Wood that has special powers.
Wood that Works.**

Hushwood Acoustics

Hushwood® is the new name in wood acoustic solutions for commercial and residential projects.

Hushwood Flute

Crafted to enhance both sound quality and interior aesthetics, these lightweight panels are simple to install and transport. When paired with a batten and mineral wool substructure they can achieve a high level of sound absorption.

Certain decors in the Hushwood Flute Collection are available to order in a Class B Fire Rating.

Please email info@havwoods.com for further information

Key benefits:

Lightweight
Easy to position and attach

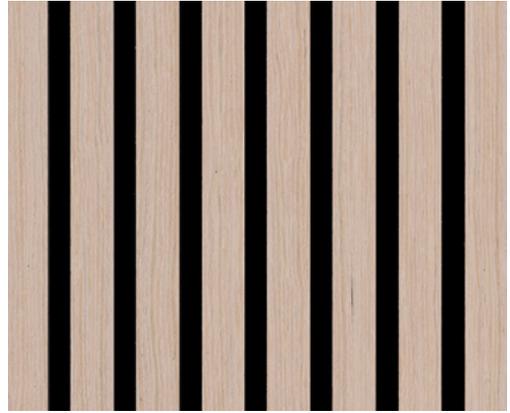

Quick & Simple
Easy to install in any room

Acoustics
An effective sound insulation and absorption material

Key benefits:

Ecology

A natural material

Aesthetics

A wide choice of textures, shapes and hues

Health

A breathable, anti-allergenic material promoting a healthy environment

Long-Lasting

Does not become deformed, does not lose its properties over time

Acoustics

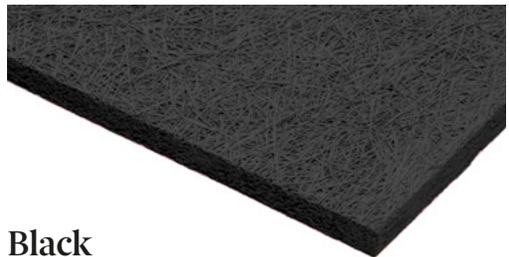

An effective sound insulation and absorption material

Hushwood Fiber

This acoustic panel product is suitable for both walls and ceilings. It is composed from 100% natural materials using wood fibre, cement and water.

The result is a unique looking 25mm thick panel that also has fire and acoustic ratings suitable for use in both residential and commercial applications.

There are 9 colours in the range as standard, but other colours are available and can be matched to any RAL number desired. These colour options, combined with a selection of shapes and sizes ensures that the design options are endless. All Hushwood Fiber acoustic tiles are also FSC® (FSC-COO9500) Certified.

PurePanel

Pre-finished décor panels & veneers

Havwoods PurePanel® pre-finished veneered MDF panels and veneers are ideal for designers, architects, and joiners looking to create stylish and distinctive interiors for both commercial and residential spaces.

Our PurePanel® boards and veneer sheets are highly versatile and ready to use, providing significant time and cost savings while still delivering the authentic look and feel of real wood. Coloured to complement some of our most popular flooring options; the mix-matching technique and precise industrial processing of PurePanel® ensure consistent colours and high-quality finishes that are perfect for use in kitchens and to create bespoke cabinetry and furniture.

Matching PureEdge banding is available, with touch-up pens available upon request.

PurePanel 3D

Building on the core elements of our standard PurePanel, these panels feature hardwood veneers with an MDF or plywood core, elevated to a new level of design. Enhanced with 3-dimensional deep textures, geometric raised surfaces, and organic shapes, they combine smoked and natural real wood veneers to create truly distinctive panels. Ideal for applications such as furniture, cabinetry, wall and ceiling coverings, and interior doors, these panels add a unique touch to any space.

Havwoods Returns Policy

Leftover goods

If you have any unused packs left over after fitting we can accept these back for credit, subject to the following conditions:

- Goods must be returned within 30 days from date of delivery (subject to our terms & conditions).
- A 20% restocking fee applies.
- You are responsible for returning the goods to us at our Carnforth warehouse at your expense. Original delivery cost is non-refundable. Refunds will be issued within 14 days of receipt of material into our warehouse.
- Any returned goods must be unopened, no partial packs will be accepted.
- Goods must be in their original, "as new" condition and with original packaging. Any packs returned in a damaged condition or not packaged correctly cannot be credited.
- Handed products must have an equal quantity of Left and Right hands.
- Please note that unfortunately we cannot accept products which are specials or bespoke, made to your specifications (including wooden profiles) or non-stock items especially brought in for your order.
- Any bespoke or non-stock items remaining at our warehouse which are part of a call-off order will be invoiced 14 days after the end of the contract.
- Before returning any goods, a return order number must be obtained from the Havwoods Sales Department. Please write this number, together with the names of both sender and recipient, clearly on each unit being returned.

Goods arrived damaged or short delivered

- Any deliveries with damaged or missing goods should be accepted but must be signed for accordingly (i.e. "damaged" or "short delivered"). Phrases such as "unchecked" will not be accepted.
- Photographs should be taken of any damaged goods at the point of accepting deliveries and forwarded with your claim.
- All damaged or missing goods must be reported to the Havwoods Sales Department within 4 days, and a replacement will be sent out to you at the earliest available delivery date.
- If you notice a problem after signing for delivery, then please contact us within 4 days to arrange a replacement. Photographic evidence of any damaged goods must be provided.
- You will not normally be expected to return the damaged packs to us. After your claim has been accepted by us please dispose of the items safely.
- We do advise you to check your packs upon delivery to avoid any unnecessary delays if there is a problem with the delivery.

Faulty goods

If the products arrive with a manufacturing fault, please contact our customer services telephone line: 01524 737000 or email us: info@havwoods.co.uk. If you call us we will try to sort out your complaint while you are on the phone. If this is not possible the advisor will agree a course of action with you, in line with our terms and conditions.

Changing your mind

Subject to our terms and conditions, and in line with the Consumer Contracts Regulations 2013, you have 14 days after the day you (or someone you nominate) receives the order, (or where the order is split into several deliveries over different days, 14 days after the date of the last delivery) to notify us that you wish to cancel the order.

- Please note bespoke or special order products (including wooden profiles) cannot be returned for credit.
- To cancel an order please contact our customer services telephone line: 01524 737000 or email us: info@havwoods.com.
- You must return the products to us as soon as reasonably practicable and in any event within 30 days of delivery.
- The product must not have been removed from their packaging or in any way handled, modified, or installed (such that they are no longer in a saleable condition).
- If you cannot arrange carriage yourself, we can collect the complete order from the address to which they were delivered, on your behalf. Such collection will be at your cost, and at your risk.

NB Warranties only applicable to floors installed with Havwoods fixing products and maintained with Havwoods maintenance products, unless otherwise stated.

Delivery rates

All orders over £1,000 delivered free on a 3-4 day service, to standard destination UK mainland.

All next day deliveries £50.00 kerbside only, due to the nature of the products these may not come off on a tail lift, please ensure enough labour is on site to accept the delivery as this may require handballing from the side of vehicle.

Surcharges

Moffett assisted delivery for Greater London: (Reservation required) £150.00

Special dedicated delivery service, this can be tailored to meet your specific needs: (Reservation required) POA

Please note: Kerbside is closest kerb to the side of the vehicle, and does not include driveway or onto the property.

These rates apply to UK Mainland and apply to products up to 2.4 metres in length. POA for non-Mainland and Scottish Highlands, and/or products in excess of 2.4 metres. Above deliveries are kerbside only. Due to the nature of the products, some may not be offloaded using a tail lift and will have to be manual handled from the vehicle. Please ensure suitable labour is at the delivery point to offload your delivery.

Description & material specification

Any samples, drawings, images, descriptive matter, or advertising produced by us and any descriptions or illustrations contained in our catalogues, websites or brochures are produced for the sole purpose of giving an approximate idea of the products described in them. They shall not form part of the contract or have any contractual force. The images of the products are for illustrative purposes only. Although we have made every effort to display the colours accurately, we cannot guarantee that the print of this brochure will accurately reflect the colour of the products. Your products may vary from those images shown within.

Please note that Havwoods Ltd Terms and Conditions of Sale, as displayed at www.havwoods.com/uk, apply to all transactions. All prices are per square metre unless otherwise stated. Offers subject to withdrawal without notice. All coverages quoted are only approximate. All prices are subject to Havwoods standard Terms and Conditions, as displayed at www.havwoods.com/uk. E.&O.E.

This issue supersedes all previous price lists.
