# SUN WOOD

ABOUT US

Historic reclaimed wood from the Alps, colorful planks from Caribbean beach huts or gigantic redwood trees from the USA: At SUN WOOD, we collect the most beautiful woods from all over the world and make them available for creative room solutions.

We have developed an innovative production process that allows us to reproduce the look and feel of these woods faithfully on local wood.

## COLLECT

We've been collecting the most beautiful woods from all over the world for over 15 years. These serve as a template for the many SUN WOOD designs.

## DIGITALIZATION

We digitize these woods in-house with our large format scanner and use the high-resolution data for the unique SUN WOOD reproduction and finishing process.

## REPRODUCE

First, we give our main product - the 3-layer panel made from local spruce wood - a feel that is true to the original. Then we reproduce the authentic look using innovative printing technology.

THE VISION OF A DARING IDEA FIRES MY BELIEF IN WHAT IS POSSIBLE!

ARNO STAINER  
CEO & Adventurer

## THAT'S WHAT MAKES US SPECIAL.

At SUN WOOD, we have made it our mission to make unique woods accessible for creative room solutions. We reproduce the most beautiful woods in the world on a variety of supporting materials, offering versatile product solutions for individual projects.

From architects, shopfitters and exhibition stand builders to hoteliers, joiners and carpenters - we serve a wide range of industries with our products. An international dealer network guarantees rapid availability and low transportation costs.

You can find more information about our process, our designs and much more on our website at [www.stainer-sunwood.com](http://www.stainer-sunwood.com)

# SUPPORTING MATERIALS

## 3-LAYER PANEL

SUN WOOD 3-layer panels made of domestic spruce are ideal for creative wall and ceiling cladding, for store and exhibition stand construction or even as a temporary floor panel.

### FACTS

- Material**  
3-layer spruce wood
- Design**  
one-sided (optional on both sides)
- Surface**  
chopped or brushed
- Surface protection**  
protective coating with brushed surface
- Formats**  
5.000 x 2.050 | 1.250 mm  
2.990 x 2.050 mm  
2.500 x 1.250 mm  
1.990 x 1.020 mm  
(Compact solution = panel cutting optimized for shipping or special cuts on request)
- Thickness**  
19 mm (further thicknesses on request)

### WOOD FROM SUSTAINABLE FORESTRY

As the basis for our products, we use only wood from our home region as the basis for our products and support ecologically, economically and socially sustainable forestry with the PEFC certificate.

### FREE FROM PESTS AND POLLUTANTS

Unlike their originals, SUN WOOD products are free from pesticides, free from woodworms and free from harmful substances.

### 100% HAND CHOPPED

Every single one of our products is unique, because a lot of manual work goes into it! Before we apply the desired SUN WOOD design, the surface is chopped and/or brushed by hand.

### LARGE FORMATS PERMANENTLY AVAILABLE

We refine all types of wooden beam materials. Wooden beams measuring up to 15 m, panels measuring 5 x 2 m or individual special formats are no problem for us. We also guarantee the long-term availability of our designs.

### VERSATILE USE

Optional certifications make the panels ready for use in saunas, shipbuilding or in public areas that require a fire protection class.

### FURTHER CERTIFICATIONS

- Fire protection**  
DIN EN 13 501-1 B-s2, d0 (Europe), CAN/ULC-S102 (Canada), ASTM85 (USA)
- Format fire protection panel**  
2.990 x 1.250 mm
- Sauna**  
ÖNORM EN ISO 12460-3
- Format sauna panel**  
5.000 | 2.490 mm x 2.030 mm
- Optional**  
Also available in fiber cement with veneer in class A2

## PROFILE BOARD

- Material**  
3-layer spruce wood, profiled on 4 sides
- Design**  
one-sided
- Surface**  
chopped or brushed
- Format | Deck size**  
2.350 x 280 mm | 2.340 x 270 mm
- Thickness**  
19 mm
- Packaging unit**  
3 pieces
- Usable area per packaging unit**  
1,89 m<sup>2</sup>
- Certification**  
PEFC

## TONGUE & GROOVE BOARD

- Material**  
solid spruce wood
- Design**  
one-sided
- Surface**  
chopped or brushed, slit back
- Deck width**  
185, 225 mm, spring dimension + approx. 10 mm
- Length**  
5.000 mm
- Thickness**  
23 mm
- Usable area per packaging unit**  
5 pieces / 4,63 m<sup>2</sup> | 5,63 m<sup>2</sup>
- Certification**  
PEFC

## CHIPBOARD

**Material**  
high quality chipboard

**Design**  
one-sided (optional on both sides)

**Oberfläche**  
spruce veneer (0,9 mm) brushed,  
smooth back

**Surface protection**  
furniture protective lacquer

**Format**  
2.800 x 2.070 mm

**Thickness**  
19 mm

## MDF PANELS

**Material**  
MDF panel

**Surface**  
smooth

**Format wood designs**  
2.800 x 2.070 x 19 mm

**Through-dyed MDF**  
Concrete designs  
2.440 x 1.830 x 19 mm  
Burnt Wood Ltech  
2.800 x 2.000 x 19 mm

ALSO AVAILABLE  
AS THROUGH-DYED  
MDF!  
exclusive for our concrete  
designs and  
Burnt Wood Ltech

## WOOD BEAMS

**Material**  
glulam made from spruce

**Design**  
1 to 4-sided as required

**Surface**  
chopped or brushed

**Formats**  
all formats are available on our website

**Length**  
up to 15 m

**Additional service**  
design also possible on provided CNC-milled  
wooden beams

ALL INFORMATION  
ABOUT THE PRODUCT  
CAN BE FOUND HERE:

## PLYWOOD PANEL

**Material**  
plywood panel

**Design**  
one-sided (optional on both sides)

**Surface**  
smooth or brushed,  
smooth back

**Formats**  
2.520 x 1.720 mm (smooth)  
2.500 x 1.700 mm (brushed)

**Thickness**  
4 mm (smooth)  
6 mm (brushed)

IN ALL  
SUN WOOD DESIGNS AND  
UNI COLOURS  
(ON REQUEST)  
AVAILABLE!  
SEE FROM PAGE 16

## SHEET VENEER

**Birch veneer**  
2.500 x 1.240 x ca. 0,6 mm  
smooth surface

**spruce veneer**  
3.000 x 280 x ca. 0,9 mm  
surface slightly brushed

## VENEER EDGES

**Spruce veneer (roll material)**  
24 x 1 mm  
per roll 50 linear meters

**ABS plastic edges (roll material)**  
23 x 1 mm  
per roll 50 linear meters

## SELF-ADHESIVE WOOD VENEER

**Material**  
spruce veneer in 0,9 mm

**Surface**  
slightly brushed

**Format**  
2.100 x 280 mm  
(Other lengths up to 3.200 mm available  
on request)

**Thickness total**  
1,9 mm

**Backside**  
full-surface adhesive tape 1 mm

**Montage**  
for bonding to smooth surfaces

## PARQUET

**Material**  
3-layer parquet  
with oak top layer 3,6 mm

**Surface**  
slightly brushed with protective lacquer

**Format**  
2.200 x 222 mm

**Thickness**  
14 mm

**Packaging unit**  
6 boards (2,93 m²)

**Area of application**  
suitable for underfloor heating

**Available accessories**  
matching skirting boards for available for every design

**Certification**  
ÖNORM C2354, DIN EN 14342

## LAMELLA

### FACTS

**Lamella width**  
approx. 5 mm

**Lamella thickness**  
approx. 2,2 mm

**Available widths**  
up to 10 m (roll material)

**Minimum order**  
1 linear meter

**Extras**  
cut to size and self-adhesive  
backside available on request

**Montage**  
wall covering adhesive, spray adhesive  
or double-sided adhesive tape  
installation according to website

More about our Lamella  
products can be found here!

AVAILABLE IN ALL  
SUN WOOD DESIGNS  
AND UNI COLORS  
(ON REQUEST)

## ACOUSTIC PANELS

Reclaimed wood, oak, concrete or  
**BURNT WOOD** - over 100 different de-  
signs are available on acoustic panels  
from a wide range of manufacturers.  
Do you use acoustic panels from your  
own manufacturer? No problem!  
Choose from our wide range of high-  
quality SUN WOOD designs and let us  
refine them for you!

For more information on the  
acoustic panels scan here!

**NOTE**  
We are not a manufacturer  
of acoustic or lightweight  
panels. We  
refine them from all well-  
known manufacturers with  
our designs.

## OSB + ESB PLUS

### OSB

**Material**  
OSB panels with tongue & groove

**Strength**  
12 mm (others on request)

**Available format**  
2.500 x 675 mm  
(others on request)

**Surface**  
sanded

### ESB PLUS

**INNOVATIVE - ECOLOGICAL - LOW-EMISSION**

ESB-Plus panels offer remarkable advantages over OSB panels in  
terms of sustainability and environmental friendliness.

The panel is available as standard in the formats 2.580 x 675 x 15 mm;  
1.275 x 495 x 15 mm and 2.050 x 625 x 15 mm.

(others on request)

## LIGHTWEIGHT PANELS

Reclaimed wood, oak, concrete or  
**BURNT WOOD** - over 100 different  
designs are available on lightweight  
panels from a wide range of manufac-  
turers. Do you use lightweight panels  
from your own manufacturer?  
No problem! Choose from our wide  
range of high-quality SUN WOOD  
designs and let us refine them for you!

For more information on the  
lightweight panels scan here!

## MICRO CLT PANELS

**VERSATILE DESIGNS, EASY OF USE AND ECOLOGICAL PRODUCTION MAKE THEM THE IDEAL CHOICE FOR INTERIOR FITTINGS.**

With SUN WOOD's Micro CLT panel, you can design interiors that are both visually impressive and meet the highest ecological standards. Manufactured with wood from sustainable forestry, these panels not only offer variety and aesthetics, but are also easy to handle. Thanks to the sophisticated tongue-and-groove joint, the panels can be installed quickly and effortlessly - perfect for interior fittings and structural timber construction.

The surfaces are brushed as standard and available smooth or chopped on request. With formats from 1.250 x 625 mm to 5.000 x 1.250 mm and a standard thickness of 19 mm, the panels can be flexibly adapted to your projects. The range is rounded off by three matching edging strips for a harmonious design.

# FURNITURE LINOLEUM

We use furniture linoleum from FORBO and refine the surface. Using scratch-resistant color lacquering, we create UNI color tones, wood designs and much more for the furniture industry. The feel of the product remains almost original.

ALL DESIGNS & WEISS FO 9003 CAN BE FOUND ON OUR WEBSITE

## FACTS

### Standard formats

3.050 x 1.830 x 2 mm  
1.000 x 1.830 x 2 mm  
(+ / - 10 mm tolerance)

Further formats available on request

### Weight

approx. 2,11 kg / m<sup>2</sup>

### Minimum order

1 sheet

### Extras

cut to size possible, optionally available with double-sided adhesive backing, for formats see website

All Forbo UNI colors can also be ordered with matt transparent anti-fingerprint protective lacquer (slight color variations might occur). This protects the forbo from everyday dirt such as ketchup, mustard, coffee, red wine, olive oil, etc. and makes it easy to clean. Any format up to approx. 3 m is available.

### Shipping

On pallet or single rolled in carton

## SAMPLE EXPERIENCE SUN WOOD UP CLOSE

Would you like to convince yourself of the the extensive quality of SUN WOOD Furniture Linoleum for yourself? Experience the material up close? Gain an insight into our versatile range of designs? With our Furniture Linoleum sample folder, you can immerse yourself in all our diverse design and application solutions for the natural product linoleum!

Our sample folder can be ordered by e-mail at a price of €19.00 excl. VAT!

DESIGN // BURNT WOOD FO 19

## PROCESSING

Roll up sheet material only at room temperature

### Preparation

Acclimatize the material for about 24 hours before cutting it. Cut back the edge evenly on both sides to obtain a width of 1.830 mm.

### Note

Furniture Linoleum is made from renewable raw materials, so there may be slight color variations in different batches. This should be taken into account when reordering.

You can find information on bonding here!

### Bonding

Absorbent substrates (e.g. chipboard, raw MDF or plasterboard) are not suitable for self-adhesive Furniture linoleum. Non-absorbent substrates (e.g. glass or coated board), on the other hand, are ideal for self-adhesive furniture linoleum.

## BARK DESIGN

### FOREST-FEELING

for indoors

With the new BARK 810 design, we are taking the look and feel of a tree bark reproduction to an amazingly authentic and unprecedentedly natural level. Deep structures, indentations and shapes ensure that the panels are virtually indistinguishable from original tree bark, both visually and to the touch. At the same time, they have many advantages over original bark for indoor use.

### AVAILABLE FORMATS

**Poplar plywood**  
**15 | 18 mm**  
2.520 x 920 mm

Order your sample now!

# //BURNT WOOD

## CHARRED WOOD WITHOUT SOOT AND DISCOLOURATION

Thanks to our innovative surface treatment at SUN WOOD, it is possible: Inspired by the Japanese 'Shou-Sugi-Ban' technique, we transform domestic spruce wood into deceptively real, charred wood - completely without fire. The precisely reproduced, charred structure remains free of soot and discolouration, so the material leaves no residue and is ideal for exclusive interior projects.

## AVAILABLE FORMATS

### 3-layer panels

**Formats:** 2.990 x 1.000 x 19 mm;  
1.490 x 1.000 x 19 mm;  
Other sizes & thicknesses on request  
**Area of application:**  
Wall and ceiling panelling  
**Possible certifications:**  
Sauna (2.500 x 1.000 x 19 mm),  
Fire protection (2.990 x 1.000 x 19 mm)

### Profile boards

**Material:** 3-layer spruce wood,  
4-sided profiled  
**Format:** 2.350 x 280 x 19 mm

### Dyed - through black MDF

**Format:** 2.800 x 2.000 x 19 mm;  
2800 x 1000 x 19 mm  
**Area of application:** Furniture & interior fittings, doors, cupboard doors

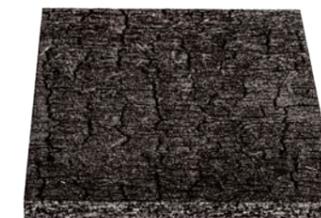

### Furniture Linoleum

**Formats:** 3.030 x 1.830 x 2 mm;  
1.000 x 1.830 x 2 mm  
**Area of application:** Furniture & interior fittings  
Other formats on request

### Chipboard with spruce veneer

**Format:** 2.800 x 1.000 x 19 mm  
**Area of application:** Wall and ceiling panelling,  
furniture & interior fittings

### Tongue & groove boards

**Formats:** 5.000 x 185 x 23 mm;  
2.500 x 185 x 23 mm  
**Area of application:** Wall and ceiling panelling  
(optionally also for facades)

## OURS LOUNGE RESTAURANT IN AUSTRIA

**Unique design meets culinary atmosphere:  
profile boards in the // SAALACH 26 design**

The lounge restaurant shines in a completely new light - thanks to the extraordinary profiled boards in the // SAALACH 26 design and the matching L-shaped finishing strips. This unique alluvial wood decor from SUN WOOD combines nature, history and craftsmanship in an impressive way.

The design // SAALACH 26 owes its name and origin to the Saalach, a Pinzgau river that reflects untouched naturalness and character. The original pieces of wood were salvaged from the waters of the Saalach right outside the gates of the SUN WOOD headquarters and served as a model for this unmistakable design. With great attention to detail, the natural structures and color tones of the driftwood were captured to create a design that combines rustic originality and modern elegance.
