

Maison Tricot - Brasschaat - Belgium

# Kebony Colours

## Colour options for Kebony cladding.

Kebony Clear and Kebony Character form our core cladding ranges. Kebony Colours is offered across both ranges, adding three defined colour options: Pre-Grey, Brown and Black; broadening the Kebony aesthetic and enabling project owners to specify the desired appearance from day one.

### Kebony Clear

A cleaner, more uniform timber expression with a knot-free appearance.

### Kebony Character

A more varied timber expression with visible knots and a natural appearance.

## How the surface evolves

### Natural

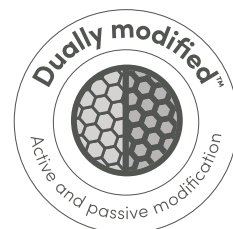

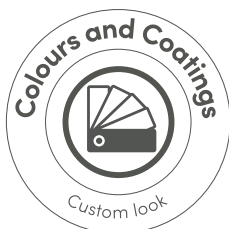

Supplied in Kebony's natural wood tone, allowing the cladding to weather and develop its own silver-grey patina over time.

### Pre-Grey

Supplied with a defined grey appearance from day one, supporting a more even and consistent transition as the wood naturally develops its silver-grey patina.

### Brown and Black

Supplied with a defined colour finish, giving the cladding a richer, more architectural colour expression and supporting a consistent facade aesthetic.

Private House - Weidert - Germany

# Finish guidance

The guidance below summarises the intended visual effect, colour reference and maintenance approach for each finish. Final specification should be confirmed against physical samples and project conditions.

Colour samples are indicative only. Final colour approval should be based on physical samples.

## Natural

Original Kebony surface, designed to develop a silver patina over time.

## Pre-Grey

Pre-weathered appearance from day one, designed to transition to natural grey.

### Codes

Kebony Clear TS5101  
Kebony Character TS5001

### RAL Reference

● RAL 7035  
● Light grey

### Maintenance Guidance

No recoat required.

## Brown

Natural warm timber tone for a maintained brown timber expression.

### Codes

Kebony Clear TS6502  
Kebony Character TS6402

### RAL Reference

● RAL 8003  
● Clay brown

### Maintenance Guidance

Recoat approximately every 3 years.

## Black

Opaque architectural finish for strong contrast.

### Codes

Kebony Clear TS6101  
Kebony Character TS6001

### RAL Reference

● RAL 9005  
● Jet black

### Maintenance Guidance

Recoat approximately every 4-5 years.
